EXPERIENCE

Microsoft

Aug 2025 - Present

Software Engineer

Redmond, WA

- Managed security compliance across company-wide resources, ensuring adherence to internal regulatory standards.
- Improved **governance** and **visibility** of cloud resources through automated compliance enforcement mechanisms.

Microsoft

June 2024 - Aug 2024

Software Engineer Intern

Redmond, WA

- Developed an end-to-end application for secret detection, achieving greater than **87% accuracy** and significantly reducing false positives.
- Built a **machine learning model** to identify potential security leaks and assign **confidence scores** to detections.
- Architected a multi-stage data pipeline leveraging internal and third-party tools to filter and validate detections, improving modularity and testing efficiency.
- Implemented scalable solutions using **C#, .NET Core**, and Azure services including Azure Key Vault, Azure Storage, Azure Machine Learning, and GPT4.

Amazon

May 2023 - Aug 2023

Software Engineer Intern

Toronto, ON

- Led the design and development of a Java-based microservice to automate ad filtering workflows, reducing manual effort by approximately **10 hours per week**.
- Migrated and optimized data storage to **Amazon DynamoDB**, improving **performance** and **audit capabilities**.
- Designed a scalable data distribution architecture using **Amazon S3** to mitigate DynamoDB throttling for over **10,000 servers** querying data every 15 minutes with over **2.5 million** total records.
- Developed **event-driven integrations** using **AWS Lambda** and S3 triggers to enable automated updates to DynamoDB via CSV uploads.

Top Hat

Sept 2022 - Dec 2022

Software Engineer Intern

Toronto, ON

- Implemented backend services using **Django**, including email verification, and user data management.
- Built responsive frontend components using **React** and **Redux-Saga** to handle asynchronous API responses and display real-time feedback.
- Resolved framework-related issues in **Tastypie** and increased system reliability by expanding **unit test coverage**.

Assent

Sept 2021 - Aug 2022

Software Engineer Intern

Remote

- Redesigned user interface components using **Angular (TypeScript)** to improve **usability** and **user experience**.
- Developed **interactive dashboards** with **drill-down capabilities** and implemented dynamic data grids using **Ag-Grid**.

EDUCATION

York University

Bachelor of Science in Computer Science

Relevant Courses: Data Structures and Algorithms, Operating Systems, CyberSecurity, Network Protocols, Machine Learning

TECHNICAL SKILLS

Languages: Python, Java, C#, SQL, JavaScript

Frameworks/Cloud platforms: AWS, Azure, GCP, VertexAI, Django, Flask, Spring, React, Angular
